

Advantages of the **ZAP**TM series Laser Rangefinders

Version 100114

1. The **smallest long range** laser rangefinders on the market:

ZAPTM 1200: 3.5"x2.7"x1.4" (90 x68 x36mm)

ZAPTM 1500: 4.0"x2.8"x1.65"

ZAPTM 1600: 3.9"x2.8"x1.6"

ZAPTM 2000: 4.6"x2.9"x1.6"

(Note: "1200" means 1200yds max range to a **non-reflective** target, at 20 km visibility)

2. **Simultaneously** measures (and displays) **first and last targets (unique)**.

(This is most helpful for hunting and golfing: when a hunter is ranging an animal through bushes, or, when a golfer tries to obtain the range to a flag in front of a tree.

3. At the selection of a different measuring mode, user can simultaneously measure **distance and height (unique)**, or **distance elevation**, or **distance and compass orientation..**

3. **Auto rain** (ranges in rain)
Auto fog (unique), and
Auto scan modes.

5. **One button operation** (**ZAP**TM 1200).

6. **Instantaneous results:** "fast" is our characteristic, even for longer distances
